Objective

Computer Engineering student with AI specialization seeking an entry level position to apply and enhance skills in deep learning, backend optimization, and scalable software development.

Education

B.E. in Computer Engineering (AI Specialization)
University of Balamand (UOB) | Sep 2024–*Expected Graduation: Dec 2025*

Exchange Program in Computer Science & Engineering
Université Libre de Bruxelles (ULB) | Sep 2022–Jan 2024

B.S. in Computer Engineering
University of Balamand (UOB) | Sep 2018–Jan 2022

Technical Skills

- **Programming:** Python, C, Java, SQL, HTML, CSS, JS, Bash

- **AI/ML:** PyTorch, TensorFlow, Keras, MLflow, OpenCV, Scikit-learn

- **Tools:** Git, Docker, VirtualBox, PostgreSQL, Synopsys IP design tools

- **Languages:** Arabic (Native), English (Fluent), French (Fluent)

Professional Experience

- **Tutor (Javascript)** | J-tech academy| May-June 2025

- **Training Program (IP design)** | SiliconCedars (Synopsys) | June-Sep 2025

- **Private Tutor (Computer Science)** | Freelance | Jan–Jun 2022, Sep 2023–Jun 2024

- **Backend Developer Intern** | TripnTap | Jun–Sep 2021
